RENTALSCAPE VACATION RENTAL INSIGHTS

Tired of host compliance software that putters around with a fraction of short-term rental data?

Learn about Rentalscape, the only platform that tracks short-term rental activity every day on more than 10,000 rental sites.

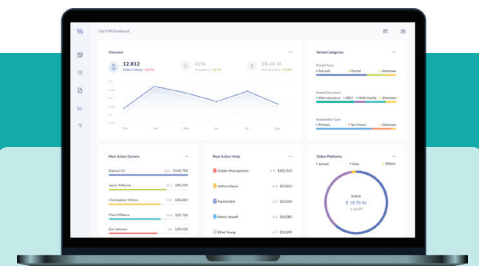

More data than humanly possible.

Only Rentalscape mines millions of listings on 10,000+ short-term rental sites and is ready to roll for your community in just a few weeks.

If it doesn't sound humanly possible, that's because it isn't.

Rentalscape uses artificial intelligence to automatically search and identify short-term rental permits, past, current, and future bookings, earnings, and host information, customized to your city's needs.

**USED IN COMMUNITIES
THROUGHOUT
THE UNITED STATES**

Daily monitoring of
15 Million listings
on 10,000 sites

Largest repository
of real estate data
in the world

100x more data

95% compliance
and short-term rental
identification

**Deployment in
weeks** instead of
months or years

WIN IN MORE WAYS THAN ONE.

Boost short-term rental compliance. Double (or more) your taxable revenue capture.
Reduce your workload. See short-term rentals in your specific jurisdiction
(and whether they're currently permitted and remitting).
